John Doe

Software Engineer | Full-Stack Developer | Technology Enthusiast

Experience

Senior Software Engineer

Tech Solutions Inc. | Jan 2021 - Present

- Designed and developed scalable web applications using Node.js, React, and AWS.

- Led a team of five engineers in building cloud-based software solutions, increasing deployment speed by 30%.

- Implemented CI/CD pipelines that improved delivery timelines by 20%.

- Spearheaded the migration from monolithic architecture to microservices, reducing system downtime by 25%.

Software Developer

Code Innovators | Jun 2018 - Dec 2020

- Collaborated on full-stack development projects using Python, Django, and JavaScript frameworks (Vue.js).

- Reduced system bugs by 15% through automated testing and regular code reviews.

- Improved data processing time by 40% by optimizing SQL queries and implementing caching strategies.

- Contributed to API development for mobile app integration, resulting in a 10% boost in user engagement.

Junior Web Developer

Future Web Labs | Aug 2015 - May 2018

- Assisted in building and maintaining responsive websites using HTML, CSS, JavaScript, and PHP.

- Implemented security protocols, reducing vulnerabilities in key web applications by 50%.

- Developed front-end features that improved user interaction and satisfaction by 25%.

Skills

- Programming Languages: Python, JavaScript, PHP, Java, SQL

- Web Development: HTML, CSS, React, Vue.js, Django, Node.js

- Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, CI/CD

- Database Management: MySQL, MongoDB, PostgreSQL

- Version Control: Git, GitHub, GitLab

- Agile Methodologies: Scrum, Kanban

Education

Bachelor of Science in Computer Science

Tech University | Graduated 2015
